INTRODUCTION

KBOO is a volunteer-powered, non-commercial, listener-sponsored, full-strength, community radio station that has been broadcasting around-the-clock, day in and day out, for almost 50 years. KBOO operates from a set of strong progressive values that continue to evolve as the world in which we live changes.

As KBOO enters our second half-century, we recognize the need for a clear plan outlining how we will continue to evolve to meet the growing and changing needs of our community. This strategic plan, and the process of its development, charts KBOO’s course for the next three years.

This strategic planning process began in December 2015 and ran through August 2016 and included:

- Convening a Strategic Planning Support Work Group comprised of members of KBOO’s staff and board, KBOO members and outside consultants.
- Conducting a strength-based assessment of KBOO’s current state and capacities, building a common understanding of KBOO’s 2016 reality.
- Leading a visioning and planning process that involved workshops with the staff and board, surveys of KBOO members, and focus groups of KBOO members and volunteers.
- Engaging with KBOO’s staff to create concrete work plans for achieving the new strategic objectives.
- Whenever possible we had surveys and other written outreach materials in Spanish and English.

What We Mean by “Goals” and “Objectives”

Our strategic GOALS are our targets for big aspects of our work over the years. Our OBJECTIVES describe how we'll achieve those goals. You can also think of objectives as “mini-goals” that will lead us to meeting our strategic goals.
This Strategic Plan as a Living Document

KBOO is committed to ensuring this plan is a dynamic guide for our work over the next three years.

KBOO staff have developed specific milestones that will measure KBOO’s progress towards these goals, and the staff have developed concrete work plans that detail exactly who will do what to keep KBOO on track toward its objectives over Year One of the plan.

As KBOO begins the process of building its budget for Year Two, staff and board will jointly evaluate their progress toward those milestones, and we will make any necessary adjustments to the plan based on that evaluation. KBOO staff will then develop concrete work plans for Year Two, and this process will repeat as KBOO enters the budgeting process for Year Three.

At the end of Year Three, KBOO will assess our overall performance in relation to the strategic goals outlined here. KBOO staff will report monthly on progress toward these goals. These reports will be available on our website.

KBOO shall be a model of programming, filling needs that other media do not, providing programming to unserved or underserved groups. KBOO shall provide access and training to those communities.

KBOO news and public affairs programming shall place an emphasis on providing a forum for unpopular, controversial, or neglected perspectives on important local, national, and international issues, reflecting KBOO’s values of peace, justice, democracy, human rights, multiculturalism, environmentalism, freedom of expression, and social change.

KBOO’s arts, cultural, and musical programming shall cover a wide spectrum of expression from traditional to experimental, and reflect the diverse cultures we serve.

KBOO shall strive for spontaneity and programming excellence, both in content and technique.

KBOO será un modelo de programación, llenando las necesidades que otros medios no cubren, ofreciendo un espacio a las comunidades diversas y a los grupos desprotegidos. KBOO proporcionará acceso y formación a esas comunidades.

Las noticias y la programación de temas de actualidad pondrán énfasis en proporcionar un foro para las perspectivas impopulares, controvertidas e ignoradas en importantes asuntos locales, nacionales e internacionales, reflejando así los valores de paz, justicia, democracia, derechos humanos, multiculturalismo, ecología, libertad de expresión y cambio social.

La programación de arte, cultura y música de KBOO abrirá un amplio espectro de expresiones de lo tradicional a lo experimental, reflejando las diversas culturas a las que KBOO sirve.

KBOO apostará por la espontaneidad y la excelencia de la programación tanto en el contenido como en la técnica.
